- **Honorable mention for best use of Pepsi products-** Clinic Reception area, Kristi Martin- Bayya, team lead, team member Tracy Lancaster

All entries were far more creative than I ever dreamed. They were all fabulous, represented the 4<sup>th</sup> of July theme very well, were colorful and showed great team work! All entries included flags, which were all very different. All entries used pop cans in various creative ways.

The main difference between the top three was how clear and obvious the message was about the Siletz tribe's efforts to step up recycling and reuse.

Thank you all so much for participating. Pictures are posted on our Facebook page. Search for Siletz Tribal Energy Program and "like" us to see them. Please check the page on your own time using your own equipment. Or better yet, go to the locations and see for yourself. Learn what can be recycled and where the teams found their materials. Plan your entry for next year!!
