Fresh Steelhead Season Coming Up

We expect to begin receiving fresh whole-bodied steelhead in Siletz from the Oregon Department of Fish and Wildlife's Siletz River fish trap sometime in late June and continuing into the summer. **Distribution will be done by Natural Resources staff at the east side of the old USDA building in Siletz.**

We only get a couple hours notice that we will be getting fish on any particular day, so if you want to receive a phone call or email to say we are expecting fish that day, please contact Natural Resources Manager Mike Kennedy at 541-444-8232 or Natural Resources Administrative Assistant Denise Garrett at 541-444-8227 to get on our notification list.

Please note that we will **not** accept notes to pick up fish for someone else. Instead, we will allow each **household** that shows up to pick up 1-3 fish, depending on the number of fish we get that day. We encourage folks to share their fish with other family members and neighbors.

MISSION

We strive to have fun while building both reading skills and reading self-esteem over the summer months. Reading is an essential skill for our children's success. By creating two reading groups, we hope to offer an individual developmentally appropriate reading and learning experience for each student.

PARENT COMMITMENT

Numerous studies have shown that reading over the summer months prevents "reading loss" for children. Good reading skills are essential for the success of our children. Read to your child every day. We ask that each family commit to reading to (their child) or being read to (by their child) for 20 minutes each day.
