

# Lincoln County Emergency Operations Center (EOC) Public Information Hot Topics #5 Increased testing, Prescription Delivery

Revised: April 29, 2020, 7:00PM

Today’s message is about increased testing in Lincoln County and a reminder about prescription delivery.

## EXPANDED TESTING NOW AVAILABLE

Samaritan Health announced expanded testing at their drive-thru sites this week.

**All patients with symptoms and a clinician order can get tested.** Also, residents, staff, children, or other people in a care facility or group living setting as long as labs have capacity. The list of symptoms from the CDC expanded this week to include:

- |                      |             |                              |
|----------------------|-------------|------------------------------|
| Fever                | Headache    | Repeated shaking with chills |
| Cough                | Sore throat | Muscle pain                  |
| Difficulty Breathing | Chills      | New loss of taste or smell   |

If you do not have a medical provider, there are at least two options:

1. Contact Lincoln Community Health Center to become a new patient and get screened. 541-265-4947 or visit [www.lincolncommunityhealthcenter.com](http://www.lincolncommunityhealthcenter.com) . LCHC is a community clinic and does not turn anyone away if they are unable to pay.
2. Contact Samaritan Health to become a new patient and get screened. 541-768-7080 or visit <https://www.samhealth.org/health-services/coronavirus-information>

### Drive thru testing sites (these sites require an appointment and a clinician’s order)

Depoe Bay  
531 US-101 Suite A  
Depoe Bay, OR 97341

Waldport  
920 SW Range Dr  
Waldport, OR 97394

“Samaritan has expanded testing criteria to include ALL patients with symptoms of coronavirus, with a clinician’s order, and we encourage anyone who has any cold or flu-like symptoms to contact their health care provider to find out whether they should get tested. We believe increased testing availability will further help reduce the spread of the virus and help our communities get a better sense of how the disease is spreading.”

*Adam Brady, MD, Samaritan Infectious Disease*

*Robert Turngren, MD, Chief Medical Officer, Samaritan Health Service*

## PRESCRIPTION DELIVERY

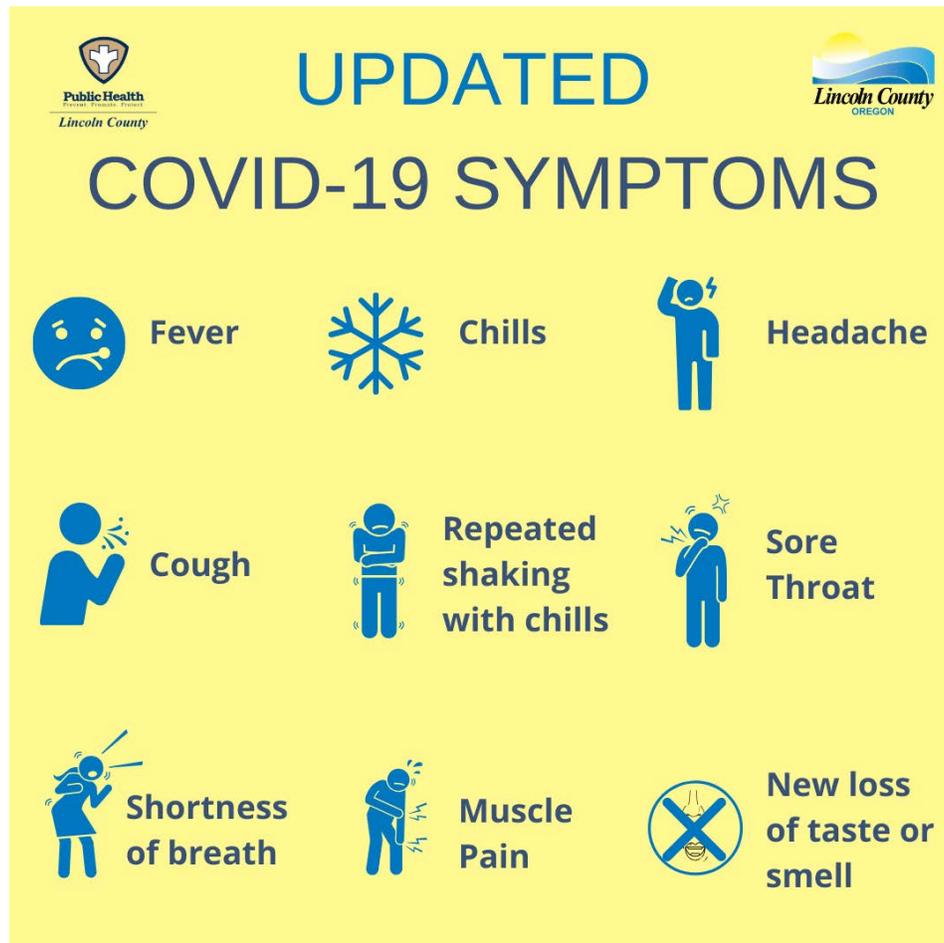

Lincoln County Sheriff's office and Toledo Police Department are now delivering prescriptions to vulnerable people unable to get to the pharmacy. This is a free service and could take up to one business day to delivery. Contact the Lincoln County Call Center to answer screening questions, demographic information and drop off address at **541-265-0621**.

Respectfully submitted,

*Rebecca Austen*  
Health Department Director  
Lincoln County Health & Human Services

*Susan Trachsel,*  
Public Information Officer  
Lincoln County Public Health

**Graphics to share on below and on following pages.**

The Lincoln County Sheriff's Office & Toledo Police Department are now offering

# Prescription Medication Delivery Service

to vulnerable Lincoln County residents.

*Please follow these steps:*

1

Contact your local pharmacy, order the prescription, and let them know law enforcement will be picking it up.

2

Prepay for the prescription online or over the phone.

3

Contact the Lincoln County Call Center at (541) 265-0621 to answer screening questions, including demographic information and drop-off address.

4

The person on the prescription must be at the drop-off address and present valid identification to receive the prescription. Please wear a mask or face covering and maintain six-feet of physical distance from the officer or deputy dropping the medication off.

**\*\*This is a free service, and could take up to one business day to be delivered\*\***
